

It has been my pleasure to be able to share music with students and to participate in a variety of music ensembles since the 1970's. I started playing trumpet in the 4th grade and played all through High School and College. I received a degree in Music Education from Edinboro University in Pennsylvania.

Since I met my husband, also a trumpet player, here in the Quad Cities, we perform with the Quad City Wind Ensemble and have started groups such as the BRBB (Big River Brass Band) and the Quad City Homeschool / Private School Band. We enjoy traveling to see our children and grandchildren. We also enjoy attending music clinics and workshops around the country, playing our trumpets along the way.
