

I graduated Cum Laude from Knox College with a Bachelor's Degree in Secondary Education and Social Science Education with a certificate of Middle School Endorsement. Being an educator has been my goal since my 3rd grade teacher changed my life and showed me school could be cool. This has been my goal ever since; having a comfortable and fun class room that kids actually look forward to learning in! When I teach, I try to fill the class with enthusiasm and energy.

While at Knox College I was also a 3 year captain for the wrestling team. I earned several accolades as a High School and Collegiate wrestler. In addition to wrestling, I played football in High School so I know how the kids feel with always being busy. I was raised in Moline almost my entire life and went through the Moline Public School System. It is good to be in the city that raised me and now be the one bringing education to our youth!
