

EMERGENCY ROBO-DIAL ALERTS

Quad Cities Christian School implements the use of One Call Now, a “robo-dialing” system to send important messages to our student body in a timely manner. This system is used primarily for weather related school closing notifications, athletic practice/game cancellations, major school event reminders, etc.

At no charge to our families, we are able to register up to five telephone numbers, (cellular, work, or home), for calling/texting, and up to five email addresses to be used during these occasions. We ask that at the time of enrollment or re-enrollment, each family take a moment to review their contact information and confirm it is up-to-date and correct for the times when One Call Now is used. Consider whether to have any emergency contacts beyond parents/guardians included within the amount allowed.

Should you wish to receive your phone notifications by text messaging, please text the word ALERT to the phone number 22300 in addition to filling out the form below. You will receive a message from One Call Now confirming your registration. Standard texting rates from your service provider apply. You may cancel at any time by texting the word CANCEL to the phone number 22300.

Please fill in the spaces below and return with the enrollment packet. Thank you!
